

In 2005, HCF began the tradition of the Endangered Places List, calling Canada's attention to the 10 most endangered historic places on our national radar screen. The List is a powerful tool for attracting media attention and strengthening the resolve of local groups and officials working to find a solution.

We are making a difference with your support.

En 2005, la FHC a entamé la tradition du palmarès des sites menacés afin d'attirer l'attention du Canada sur les 10 sites historiques les plus menacés à l'échelle nationale. Le palmarès est un puissant outil pour susciter l'intérêt des médias et renforcer la détermination des groupes et responsables locaux cherchant des solutions.

Grâce à votre appui, nous changeons les choses.
