

Landmark heritage buildings and historic sites across the country continue to be threatened or lost through neglect, weak legislation, development pressures and lack of funding. Through important work such as encouraging new federal legislation to protect Canada's lighthouses and supporting conservation efforts through the Endangered Places List, HCF continues as an important force for heritage in Canada. HCF benefits from the support of individuals, foundations, corporations, and other donors who share our commitment to saving places that matter to Canadians.

We are making a difference with your support.

Partout au pays, des immeubles du patrimoine et des sites historiques emblématiques continuent d'être menacés ou perdus par suite de négligence, de mesures législatives insuffisantes, de pressions dues au développement et de manque de fonds. Grâce au travail important qu'elle poursuit, par exemple en encourageant à l'adoption d'une loi fédérale pour protéger les phares du Canada et en appuyant les efforts voués à la conservation par son Palmarès des sites menacés, la FHC reste une force vitale pour la préservation du patrimoine au Canada. La FHC bénéficie de l'appui de particuliers, de fondations, d'entreprises et d'autres donateurs qui partagent son engagement à sauver des sites qui importent aux Canadiens.

Nous changeons les choses grâce à votre appui.
